SUMMARY

I'm Fresh Graduate of Software Engineering, who is independent and self-motivated. Google certificate holder for machine learning and completed final year project in machine learning. I'm willing to do hard work in machine learning domain and excited to learn more.

SKILLS

- *C++/C*
- *Java*
- ***Python /AI/ MATLAB****
- *C#*

- *Android*
- *PHP/Html/CSS/JavaScript*
- *SQL/SQL server / Oracle*

EDUCATION

BS Software Engineering| Comsats Institute of Science & Technology ATD
2016 – 2020
CGPA: 3.15

FINAL YEAR PROJECT

Studying Plant Growth Using Artificial Intelligence | MATLAB and Python
Detection (CNN) of plant (Stem and root) via camera to calculate growth. Sensors feed environment data understudy to create a date set for researchers(user) for specific interval.

Projects

- TIKTOK Console GAME C++/C
- Snake Game (Java using GUI and Threads)
- Agency Distribution Software (java and jasper report)

- Monopoly game (java using GUI, Thread and Link list)
- London tourist App in (Android)
- Movie Recommendation System (K-Mean Python and Tinker)

AWARDS

Art and Science of Machine Learning (Python and TensorFlow)
Credential ID: LUEMQP88QA4X
Project Exhibition 2018
Keylogger for Parents in C#
